

September 17, 2015

From First Selectman, Gayle Weinstein:

I had another meeting today with State DOT staff and their contractor regarding the Cobb's Mill Bridge. Georgetown Rd. and Old Mill Rd. will be open for 2 way traffic by Monday, September 21, close of business day. We anticipate the bridge itself will be open for 2 way traffic, with temporary barriers, by the end of the first week in October. They will have to close down a lane on occasion, as they will not be completed with the project until Oct. 25th.
